

Soil and Water for Every Farm

A workshop on **Keyline Design** with Darren Doherty

Teaching a Keyline Course for the second time in Far North Queensland

March 29th -31st 2009 09:00-17:00 with lunch break

Malanda • Atherton Tablelands • Far North Queensland

\$485 for 3 Days Incl. Morning & Afternoon Tea & Lunch

Don't miss this rare opportunity to learn practical, hands-on Keyline Design with the world's most respected Keyline educator, Darren Doherty.

Location

The course will be held on the 300 acre Hereford cattle property of award winning and well respected local business [Marsh Butcheries](#).

Marsh Butcheries Farm
57 Kirra Koppa Road
Malanda, QLD 4885

"The object of Agriculture is to feed and clothe the people. Two things will guarantee this happens with maximum efficiency. Firstly, farming must be prosperous and secondly, soil fertility must constantly improve"

- P.A. Yeomans

Rosella Waters

P.O. Box 225
Walkamin, QLD 4872

Keyline Design is a system that restores and regenerates landscapes. It offers a unique combination of water conservation and soil building, and is a powerful tool for farmers. A primary feature of the work is a cultivation technique using a Keyline plow; the term Keyline refers to a "keypoint" on the watershed, which is the interface between collection and distribution of water on the landscape.

The Keyline method allows a farmer to build soil and to store and supply water where it is most needed!

Topics covered include:

- Keyline™ Design
 - Carbon sequestration
 - Cost effective soil creation
 - Water harvesting & reticulation
 - Designing water into a property
 - Dam placement
 - Pasture improvement
 - Holistic Management™
- and much more.....

About the Teacher

Darren Doherty has extensive experience across the world in Permaculture project design, development & management and is a pioneer in retrofitting broad acre agricultural systems.

A registered teacher of The Permaculture Institute, qualified Whole Farm Planner (University of Melbourne), Approved Keyline Designer, & Accredited Permaculture Training (APT) Trainer, his extensive knowledge also covers GIS, Consulting Processes, Holistic Management™ and Carbon Farming plus a lot more...
